

Instructor & planning committee disclosures

Speakers and Planning members have been asked to indicate whether or not they will discuss off-label use of products and/or whether or not they have a financial and/or non-financial interest arrangement or affiliation with one or more commercial organizations that could be perceived as a real or apparent conflict of interest in context of the subject of their presentation. This information is disclosed so that an informed audience may formulate their own opinions as to any bias in the information presented. All disclosure forms are on file in the Education Office.

NAME	Presentation will include discussion of commercial products or services	Presentation will include discussion of off-label use of products	Relevant non-financial relationships are those relationships that might bias an individual including any personal, professional, political, institutional, religious or other relationship. May also include personal interest or cultural bias	Relevant financial relationships are those relationships in which the individual benefits by receiving a salary, royalty, intellectual property rights, gift, speaking fee, consulting fee, honoraria, ownership interest (e.g., stocks, stock options, or other ownership interest, excluding diversified mutual funds), or other financial benefit. Financial relationships can also include “contracted research” where the institution gets the grant and manages the funds and the individual is the principal or named investigator on the grant	Mitigation/Resolution of conflicts

COMMERCIAL SUPPORT

Information regarding commercial support will be updated if provided.

CONTACT HOURS/CME CREDITS

Participants should claim only the hours attended in each session. Credit will be awarded to attendees if they attend the session(s) they select in full, take the session specific survey(s), and the overall conference evaluation.

Encompass Health Rehabilitation Hospital of Braintree is approved as a provider of nursing continuing professional development by the American Nurses Association Massachusetts, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.

Any recommendations involving clinical medicine that speakers provide will be based on evidence that is accepted within the profession of medicine as adequate justification for their indications and contraindications in the care of patients. All scientific research speakers refer to, report, or use in support of justification of a patient care recommendation will conform to the generally accepted standards of experimental design, data collection, and analysis.

For any drug/product discussed in my presentation, the data will be objectively selected and presented, both favorable and unfavorable information about the drug/product will be fairly presented, and speakers will include information about reasonable alternative treatment options. Any suggestion of superiority of one drug/product over another will be supported by evidence-based data.

For any specific healthcare products or services that speakers discuss, I will use generic names to the extent possible. If speakers need to use trade names, speakers will use trade names from several companies when available, and not just trade names from any single company.

If speakers are discussing any drug/product use that is off label, speakers will disclose that the use or indication in question is not currently approved by the FDA.

If speakers have been trained or utilized by a commercial entity or its agent as a speaker (e.g., speaker's bureau) for any commercial interest, the promotional aspects of that presentation will not be included in any way with this activity.

If speakers are presenting research funded by a commercial company, the information presented will be based on generally accepted scientific principles and methods, and will not promote the commercial interest of the funding company.
